- CCNA2
- Data Warehouse
- Java Web Services
- Attention to Details
- Teamwork
- Troubleshooting
- Communication
- Microsoft Visual Studio Code
- Microsoft Visual Studio
- Power BI
- Operating systems: Windows, Linux

PROGRAMMING

- Java(basic)
- HTML/CSS(intermediate)
- JavaScript(basic)
- SQL(intermediate)
- C#(basic)
- Kotlin(basic)
- PHP(basic)

LANGUAGE

- English(basic)

CERTIFICATIONS

- CCNA: Switching, Routing, and Wireless Essentials

ABOUT ME

Since I started studying systems engineering, I have realized that I enjoy it. I love the sense of accomplishment I feel when I solve technical problems and help improve the efficiency and productivity of a system. In addition, I find it very interesting how systems engineering can be used to solve problems in various fields, from technology to manufacturing to science, healthcare and more. I am drawn to the challenge of learning about different systems and technologies, and I am always looking for opportunities to apply my skills and knowledge to practical projects. In short, my passion for systems engineering is something that keeps me motivated and excited, and I'm always happy to see what comes next in this exciting field.

PROFESSIONAL OBJECTIVES

As a systems engineering student, I would like to work in a technology company that allows me to apply my skills and knowledge practically and meaningfully. I want to work in an environment that is dynamic and constantly changing, and where I can contribute to the development and improvement of systems and processes. In addition, I would like to work in a company that has a collaborative work culture and provides me with the opportunity to learn and grow professionally. I am especially interested in working for a company that strongly emphasises innovation and efficiency and is committed to the quality and success of its products and services. In short, I would like to work for a technology company that allows me to apply my knowledge and skills to contribute to the success of the organization and the advancement of the technology field.

EDUCATION

2019

-

2023

Bachelor's Degree in Computer Systems Engineering

Fidélitas University

ACHIEVEMENTS

Obtaining a college degree has been a huge accomplishment for me, and it has been even more challenging to do it while working. However, with my determination and proper organization, I am in the process of making it happen. I have learned that to succeed, it is important to set clear goals and be consistent in effort and hard work. I have also found support in my friends, family, and wife and son, as well as in the university community, which has helped me get help and motivation during the process. In addition, I have learned to have good time management skills and to be flexible to adapt to changes at work and in my personal life. With perseverance and determination, I am on my way to achieving the accomplishment of obtaining a career while working.
