JOSÉ FRANCISCO GARITA SÁNCHEZ

SYSTEMS ENGINEER

83617399
FRANGARITA@OUTLOOK.COM
LORENTE, HEREDIA

OBJECTIVE

Passion: Passionate about Systems Engineering, I find gratification in solving technical problems and improving the efficiency of systems. Interested in its multidisciplinary applicability and motivated by the constant search for challenges and practical projects.

Achievements: Successfully obtained a degree in Systems Engineering while working, demonstrating determination, organization and time management skills. Proven ability to adapt to change and maintain consistency in the pursuit of goals.

Challenges: I seek career opportunities in dynamic technology companies focused on innovation, efficiency and quality. I aspire to a collaborative environment that fosters professional growth and allows me to apply knowledge to contribute to organizational success and technological advancement.

SKILLS & ABILITIES

Development Environments: Microsoft Visual Studio Code | Microsoft Visual Studio | NetBeans

Languages: JavaScript | PHP | Java | C#

Front-end: CSS | HTML5

Development Tools: ASP.NET Core | .NET Framework | ASP.NET MVC | ASP.NETWeb Api | REST APIs | LINQ | GitHub

Technical Skills CCNA: Access Connectivity | Access Security First-hop Redundancy | High Availability | IP services | Routing | Switching Protocols | Wireless LAN Controllers

Soft Skills: Team-work oriented | Verbal and written communication | Languages | Problem-solving | Agile and Scrum | Leadership

Data Analysis Tools: Data Warehouse | Power BI

Data bases: SQL SERVER| MySQL | Oracle 19C

EDUCATION

December 2023	**Bachelor's degree in computer Systems Engineering** Fidelitas University Completed a rigorous curriculum that included courses related to computer systems engineering, emphasizing topics such as software development, network administration, cybersecurity, and database management.

EXPERIENCE

2023 - 2023

Final degree project
Fidelitas University

As part of my academic training in computer systems engineering, I collaborated with fellow group members to develop a practical and applied project in a real environment with an effective client. This project served as the culmination of my studies and provided valuable hands-on experience in utilizing HTML, CSS, JavaScript, C#, SQL Server, GitHub, Visual Studio, and the .NET Framework.

The main objective of the project was to create an appointment management system for a car wash service. Leveraging HTML, CSS, and JavaScript, we designed an intuitive user interface that allows customers to schedule appointments efficiently. Additionally, using C# and the .NET Framework, we implemented robust backend functionality to enable the establishment's employees to manage customer appointments, handle inventories, manage user profiles, and keep track of the finances associated with the car wash business.

Throughout the development process, we utilized SQL Server for database management, ensuring data integrity and reliability. By leveraging GitHub for version control, we maintained a collaborative and organized workflow, facilitating seamless integration of code contributions from team members. Visual Studio served as our primary integrated development environment (IDE), providing powerful tools for code editing, debugging, and deployment.

This project provided me with invaluable practical experience in applying a diverse range of technologies to solve real-world problems, furthering my understanding of computer systems engineering concepts and preparing me for future professional endeavors.

2023 - 2023

Developer of 'Lantin Pages' - Personal Presentation and Resumes
Fidelitas University

I developed "Lantin Pages" to present my personal profile and resume. I used HTML, CSS and JavaScript, and deployed it on GitHub Pages. This platform highlights my ability to create responsive and dynamic web designs, highlighting my professional profile effectively. This experience demonstrates my proficiency in web development and project management.

LANGUAGES

2023 - 2024

English A2
Fidelitas University English Academy

I am currently participating in an intensive English course to improve my English skills. Although I do not currently have an advanced level of English, I am committed to my development and progress in this aspect.
